

## 725 CU. FT. ABRASIVE STORAGE HOPPER

Abrasive Storage Hoppers provide an economical and protective storage and loading solution for bulk abrasives. The 725 Cu. Ft. Abrasive Storage Hopper allows you to take advantage of lower abrasive cost on bulk abrasives, and improves the speed and ease of the loading process. The 725 Cu. Ft. Abrasive Storage Hopper keeps your abrasive up off the ground and away from environmental elements, protecting your abrasive from moisture and freeing up valuable space on the jobsite. Typical applications include blast rooms, blast yards, bridges, oil refineries, shipyards and storage tanks.

### REDUCED COST

Bulk abrasives are more economical than small individual bagged abrasives. Additional savings result from reduced material handling, reduced manpower, and no requirement for a mechanical lifting device.

### ENHANCED SAFETY

Standard safety features include a caged ladder and guardrail system, including kick plates, providing three additional safeguards not found on other storage hopper designs.

### INCREASED PRODUCTION

The 725 Cu. Ft. Abrasive Storage Hopper features a clearance height of 11' 6", allowing it to be easily used with a wide array of bulk blast pots.

725 Cu. Ft. Abrasive Storage Hopper includes rain guards, shedding water and preventing rain from entering the abrasive blasting pot.

The snorkel exhaust vent keeps rain and outside elements from entering the abrasive storage hopper, and is mounted in an accessible location for easy access to check for debris.

Two 4" fill ports with slide gates allow for more efficient and faster abrasive blasting pot filling than smaller ports.

# 725 CU. FT. ABRASIVE STORAGE HOPPER

## KEY FEATURES

- Rain guards
- Snorkel exhaust vent
- Two 4" fill ports with slide gates
- Weight (empty): 8,000 lbs.
- Overall height: 28'
- Overall width: 10' 6"
- Overall length: 8' 6"
- Clearance height: 11' 6"
- Clearance width: 9'
- Wall thickness: 1/4"
- Available painted and primed or unpainted

## OPTIONAL ACCESSORIES

### Bulk Abrasives

A variety of abrasives are available in bulk bags or by truckload.

### Blast Hose

Blastmaster® Abrasive Blasting Hose is available in standard lengths of 50, 100 and 400 feet, and custom lengths up to 200 feet.

### Blast Nozzles

A wide variety of blast nozzles are available to meet even the most challenging work site requirements.

### Couplings And Blast Nozzle Holders

Marco offers several types of couplings and blast nozzle holders to meet the needs of a wide variety of applications.
