

DUSTMASTER® FILTER CARTRIDGES

Dust collector filter cartridges trap dust particles removed by a dust collector system from abrasive blasting. High-quality dust collector filter cartridges are critical for keeping a dust collector operating effectively to maintain proper air flow and visibility on the work site. Dustmaster® Dust Collector Filter Cartridges are high quality replacements for all major dust collector manufacturers. Typical applications include blast rooms, blast yards, bridges, oil refineries, storage tanks, and water towers.

INCREASED PRODUCTION

Dustmaster® Dust Collector Filter Cartridges provide an optimal amount of media surface area and pleat spacing for effective dust surface loading during the suction cycle and excellent dust release during the cleaning cycle.

REDUCED COST

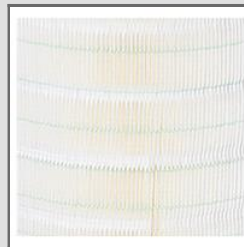

Dustmaster® Dust Collector Filter Cartridges have a galvanized, expanded metal sheath providing structural integrity and resisting rust and corrosion, extending cartridge life.

COMMITMENT TO QUALITY

Our commitment to producing the highest quality products in the industry demands strict control over our raw materials and manufacturing processes. All components used in the manufacturing of Marco products adhere to strict process controls as specified by Marco's Quality and Engineering team.

Dustmaster® Dust Collector Filter Cartridges come in a variety of filter materials and configurations, including round, flanged, or square cartridge caps.

Dimpled-pleat technology ensures consistent pleat spacing effective release of dust during air pulse.

An expanded metal sheath provides structural integrity to the filter assembly. The expanded metal is made of galvanized steel to resist rust and corrosion.

DUSTMASTER® FILTER CARTRIDGES

KEY FEATURES

- A variety of filter media materials
- Dimpled-pleat technology
- Galvanized expanded metal sheath
- A variety of end cap styles

OPTIONAL ACCESSORIES

Duct Hose

Duct hose is available in multiple sizes and lengths to customize your work site.

Duct Hose Connectors And Clamps

Duct hose connectors and clamps are available in a variety of sizes.

Dust Socks

Dust socks are made of 100% cotton sateen to fit exhaust fans 16" to 24" in diameter.

Containment Tarps

Containment Tarps are available in a variety of material types.
