

## VACMASTER® VACUUM HOSE, FITTINGS & ACCESSORIES

Vacuum Hose is used with industrial abrasive vacuums for clean-up of loose abrasives and debris on a job site. Vacmaster® Abrasive Vacuum Hose is composed of three layers; abrasion-resistant polyurethane inner liner, a rugged PVC helix and an abrasion resistant and UV resistant cover. Vacmaster® Abrasive Vacuum Hose is available in 1-1/2", 2", 2-1/2", 3", 4", 5", 6" and 8" inner diameters. Typical applications include bridges, shipyards, storage tanks, and water towers.

### INCREASED PRODUCTION

Vacmaster® Abrasive Vacuum Hose has a durable polyurethane inner liner providing a smooth interior surface allowing loose abrasive to flow easily through the hose. The rugged PVC helix resists collapse at full vacuum and allows the hose to bend and flex around corners without kinking.

### REDUCED MAINTENANCE

The superior construction extends the working life of the Vacmaster® Abrasive Vacuum Hose. The durable polyurethane inner liner, rugged PVC helix, and abrasion-resistant cover provide superior longevity, reducing the frequency of repair and replacement.

### COMMITMENT TO QUALITY

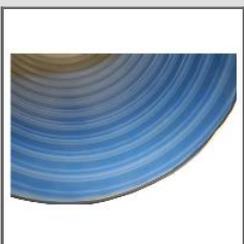

Our commitment to producing the highest quality products in the industry demands strict control over our raw materials and manufacturing processes. All components used in the manufacturing of Marco products adhere to strict process controls as specified by Marco's Quality and Engineering team.

A rugged PVC helix resists collapse at full vacuum and allows the hose to bend and flex around corners without kinking.

Vacuum Hose Menders, manufactured of 1/8" thick steel, are sized to the inside diameter of the vacuum hose, providing a snug fit for joining two like sized sections of vacuum hose together or to quickly repair damaged sections of vacuum hose.

A durable polyurethane inner liner provides a smooth interior surface, which allows loose abrasive to flow easily through the hose. Superior abrasion resistance extends the working life of the Vacmaster® Abrasive Vacuum Hose.

# VACMASTER® VACUUM HOSE, FITTINGS & ACCESSORIES

## KEY FEATURES

Available in 1-1/2", 2", 2-1/2", 3", 4", 5", 6" and 8" I.D.

Polyurethane inner liner

Rugged PVC helix

0°–158° fahrenheit temperature rating

1-1/2" through 5" is rated at 30" Hg

6"-8" is rated at 25" Hg

## OPTIONAL ACCESSORIES

### Dust Socks

Dust socks are made of 100% cotton sateen to fit exhaust fans 16" to 24" in diameter.

### Containment Tarps

Containment Tarps are available in a variety of material types.
